German New Medicin
Healthy hooves
Feeding and looker after your horses

Our motto: In harmony with nature
without chemicals - naturally!

We are working without genetic-engineering!

Wogen As

Based on a strong, loadbearing foundation (physique), with powerful thrust out of the hindquarters but nevertheless springy movements swinging through the body, this is a top-class stud-horse. Due to his calm temper it is a real pleasure to deal with this calibre horse.

He has no weakness - except for love-sick mares!
